April 10, 2025 (9a-11a)

The Ohio School Resource Officers Association (OSROA) is excited to offer the first in series of internet and social media training for school-based policing. This is a must know for school-based policing and school administrators that handle these types of issues and concerns daily.

This is also recommended for those attending the 2025 conference, as our presenter of this course is speaking at the 2025 conference and attendees having intro knowledge will help the conference attendee grasp a deeper understanding.

CURRICULUM OVERVIEW

This course is designed to equip School Resource Officers (SROs) with foundational cybersecurity knowledge relevant to their roles in school environments. As technology becomes increasingly embedded in students' lives, SROs must be prepared to identify, understand, and respond to cyber-related incidents. This training will provide officers with an understanding of digital threats, social media trends, online criminal behavior, and best practices for engaging with students on cybersecurity issues.

Instructor(s):

Shawn Waldman, of SecureCyber has over two decades of experience in cybersecurity and information systems, Shawn brings a wealth of expertise to the table.

Shawn has contributed significantly to the cybersecurity field. He dedicated five years to the FBI's Criminal Justice Information System compliance framework, developing a compliance training curriculum for agencies and vendors. His efforts in speaking, training, and writing on cyber issues are widely recognized, showcasing his dedication to making cybersecurity understandable to diverse audiences across multiple sectors.

Who Should Attend: Law Enforcement Officers Assigned to Schools, D.A.R.E Officers, SRO Supervisors and School Administrators.

Agenda:
- Welcome/Coffee at 8:30 a.m.
- Sessions starts at 9:00 a.m.
- Sessions ends at 11:00 a.m.
